

Donor to
Receiver Script

S.Y.: *(To self)* It seems as though CKD has trapped my body... I wish someone was here to donate their healthy kidney to replace my damaged one.

M.K.: *(Walks in)* Shekeilia, what's wrong?

S.Y.: I got my urinalysis results, and my doctor says that I have chronic kidney disease. I need a kidney donor.

M.K.: I wouldn't mind giving you one of my kidneys. How about we set up an appointment to see if our blood types match?

S.Y.: Thank you so much May! That's such a great idea. I'll call my doctor right away!

S.Y.: *(Picks up phone. Acts as if having a conversation with doctor)*. Good afternoon. Can I speak with Dr. Smith? *(waits for response)*. It's Ms. Yates calling.....Hi Dr. Smith. It's Ms. Yates. I found a friend who is willing to donate their kidney to me. Can we set up an appointment for our medical evaluations?...Ok. Thanks.

M.K.: So what did your doctor say? When's the appointment?

S.Y.: She said that we can go into her office tomorrow at 3:30 for medical evaluations.

M. K.: Sounds great. Just text me the address, so I can figure out how to get there.

S.Y.: Will do! See you tomorrow, May!

(some time passes)

M.K.: Hey. I got your text about the results. You have them right?

S.Y.: I sure do! Everything turned out great. We have the same blood type, and we're both healthy enough for surgery.
